2022 ANNUAL REPORT

DUPAGE COUNTY HEALTH DEPARTMENT NARCAN VENDING MACHINE AND MAIL OUT PROGRAM

On August 31, 2022, in recognition of International Overdose Awareness Day, DuPage County Health Department unveiled a Narcan Vending Machine. The Machine dispenses a free Narcan kit which includes two doses of naloxone nasal spray.

The Narcan Vending Machine is conveniently located inside the lobby of the Linda A. Kurzawa Community Center (115 N. County Farm Rd, Wheaton) where mental health services and substance use treatment is offered. Not only does this reduce barriers in accessing Narcan, but it also reduces the stigma associated with getting it.

The Narcan Vending machine is the first of its kind in DuPage County and a vital resource for people in the community to reduce the amount of opioid related deaths and save lives. The vending machine has dispensed more than 450 Narcan kits since its launch.

The DuPage Narcan Program also offers free Narcan to community members through a mailout program. In 2022, 368 Narcan kits were mailed out. Information about requesting a kit can be found at hopedupage.org.

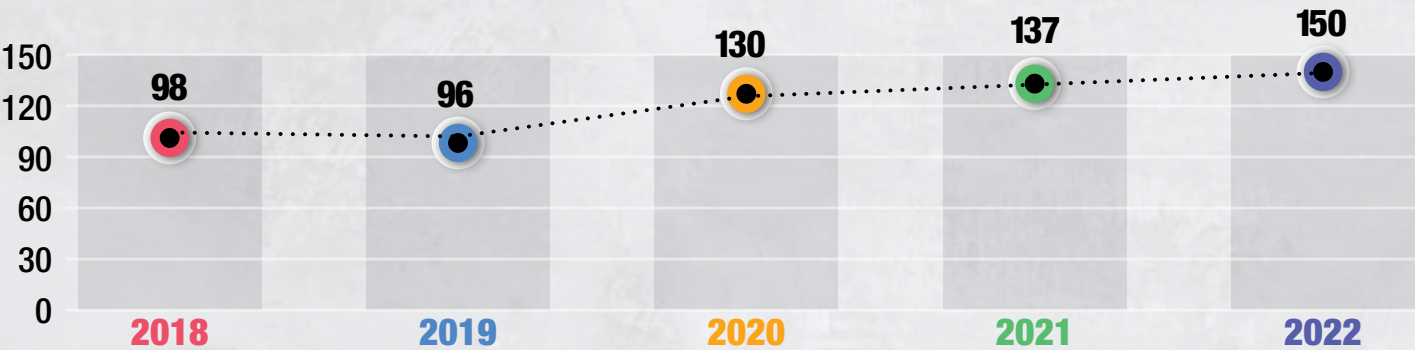

Dr. Richard A. Jorgensen
DuPage County Coroner

The most important trend is that fentanyl has become the major drug causing death. There was also an increase in polypharmacy, meaning there were multiple drugs found in the system.”

DUPAGE NARCAN PROGRAM

The DuPage Narcan Program has over 100 participating partner organizations, including law enforcement, community based organizations, fire departments, government, schools, colleges, libraries, and treatment and recovery. As the DNP grows to improve overdose prevention education and Narcan access in the community, several partners have demonstrated success:

Pictured on front cover:

- **John Caldwell and James Weaver from the Lisle-Woodridge Fire District** implemented a Narcan leave behind program for community members after responding to an overdose.
- **Jean Muno, RN at Northwestern Medicine Central DuPage Hospital**, has been providing overdose prevention training and Narcan to patients in Behavioral Health programs.
- **Laura Grabowski, Certified School Nurse at Glenbard East High School**, received training on overdose prevention and Naloxone administration through the DNP, and has been instrumental in making the school prepared to respond to overdoses.
